HOFMANN POWER WEIGHT

ADHESIVE WEIGHT ROLL

TYPE 355 2.0 SPEEDLINER

NEW OPTIMIZED DESIGN

- **Optimized segment design**
  Better attachment of the weight to the rim radius thanks to the trapezoid shape segments. Higher robustness of the product.
- **Universal application**
  Universal 5kg steel adhesive weight roll with 5g segmentation for the aftermarket.
- **Removable without residue**
  High adhesive strength at OE level with at the same time residue-free removability (SPEEDLINER).

Article number	5355-0057-739 (silver) 5355-0058-739 (black) 5355-0059-739 (titanium gray)
Vehicle type	Car
Rim type	Light alloy rim
Material	Steel (galvanized and coated)
Coating	Premium HPW powder coating in OE quality
Thickness	3,8 mm incl. adhesive tape
Width	19 mm
Segmentation	1000 x 5g (5kg)
Adhesive tape	SPEEDLINER with protruding protective film (fingerlift)
Adhesive force	Min. 30 N/ cm^2

STORAGE RECOMMENDATION

- Dry and protected from light.
- Dirt and dust-free.
- Storage temperature between 10°C and 30°C.
- No longer than one year from factory delivery.
