THE RIGHT WEIGHT FOR EVERY RIM

HOFMANN POWER WEIGHT

ADHESIVE WEIGHT ROLL

TYPE 355 2.0 ULTRALINER

- **Optimized segment design**
  Better attachment of the weight to the rim radius thanks to the trapezoid shape segments. Higher robustness of the product.

- **Universal application**
  Universal 5kg steel adhesive weight roll with 5g segmentation for the aftermarket.

- **High adhesion**
  High adhesive strength on cold, dirty or dull rims and when surface tension is too low thanks to ULTRALINER adhesive tape.

Article number	5355-0057-439 (silver) 5355-0058-439 (black) 5355-0059-439 (titanium gray)
Vehicle type	Passenger car
Rim type	Alloy rim
Material	Steel (zinc plated and coated)
Coating	Premium HPW powder coating in OE quality
Thickness	3,8 mm incl. adhesive tape
Width	19 mm
Segmentation	1000 x 5g (5kg)
Adhesive tape	ULTRALINER with protruding protective film (fingerlift)
Adhesive force	Min. 30 N/ cm^2

STORAGE RECOMMENDATION

- Dry and protected from light.
- Dirt and dust-free.
- Storage temperature between 10°C and 30°C.
- No longer than one year from factory delivery.
